

READ ME FIRST

How to prepare before sharing and how to print the tract

1. Read and practise with the companion guide

Before distributing the tract, read *Sharing the Good News: A Prayerful and Practical Companion to the Tract*. Work through the PREPARE and CROSS memory guides, understand the gospel journey, and practise explaining the tract naturally with a mature believer whom you trust.

2. Use the correct tract file

For home printing, open the A4 duplex booklet PDF: [Good-News-A4-duplex-booklet.pdf](#)

Printer settings

- **Paper:** A4
- **Orientation:** Landscape
- **Scale:** 100% (Actual Size)
- **Two-sided printing:** Enabled
- **Flip:** Short edge
- **Auto Rotate:** Disabled

Important: Use 100%, not Scale to Fit. The PDF already contains the fold gutter and should not be reduced or enlarged by the printer.

3. Print, assemble and finish

Print all six PDF pages consecutively. This produces three double-sided A4 sheets. Keep the sheets in the order in which they leave the printer, place them together, fold them centrally into A5, and staple through the centre fold.

4. Check one copy before printing in quantity

Make one complete test booklet first. Confirm that the cover is at the front, the back page is at the back, all pages read in the correct order, the reverse sides are upright, and no text or artwork crosses the centre fold. Then proceed with the remaining copies.
